Signing in to Use Adobe Software in Computer Labs

Starting with the 2019 versions of Adobe software, public lab computers on campus will require students to use Single Sign-On in order to use Adobe products. The steps below will outline the process student needs to follow to sign in.

(Note: Instructors should use the e-mail and password associated with their Adobe account to sign in and use Adobe software.)

Step-by-step guide

1. Open the Adobe software you wish to use. At the Sign in window click "Sign in with an Enterprise ID".

2. At the next Sign in window, enter "uga.edu" as the domain name and click "Sign in with an Enterprise ID".
2. You will be directed to a UGA Single Sign-On window. Enter your UGA MyID and MyID password here, and you should then be able to use the Adobe software.

3. You will be directed to a UGA Single Sign-On window. Enter your UGA MyID and MyID password here, and you should then be able to use the Adobe software.
