Guide to Image Sizes

Overview

Our Drupal 8 Franklin theme supports a variety of image sizes. Here is a handy guide to show you minimum and optimal image sizes and proportions.

Systems Status Information
Congratulations Catherine Casel

Friday, March 30, 2018 - 10:31am

Catherine Casel has been selected by the Honors Program Teaching Awards Committee as the recipient of the 2018 L. Rettum Howard III Award. This is a significant award as it recognizes her special promise in teaching honors courses early in her career. Congratulations Catherine!

Standard Image size:

- Cropping ratio - For Spotlight (above): 3 x 2
- Cropping ratio - Within Content: none, crop as you see fit
- Minimum: 325 pixels wide by 325 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights.

Shaffer CV, updated 9/18/18.pdf
Lab:
Clinical Lab - FRESIA Lab
Personal Website:
Family Relationships, Emotions, Stress & Health (FRESIA) Lab website
Google Scholar Profile
ResearchGate Profile
Office: 106 Psychology Building
Phone Number: (203) 542-3982

Standard Image size:

- Cropping ratio - For Spotlight: 3 x 2
- Cropping ratio - Square for the directory and within content (shown above): 1:1
- **Minimum:** 320 pixels wide by 320 pixels high
- **Maximum:** 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights or the 1:1 Square ratio.

Basic Pages (and all content types with a text editor field)

Here’s some text. Maecenas eget mauris arcu. Suspendisse mi tortor, maximus at pharetra eu, fermentum ac leo. Proin non dolor efficitur, vehicula arcu et, vehicula felis. Quisque posuere ante tincidunt, venenatis rhod nunc, tempus mauris. Ut quis diam vel ex facilis porta. Aenean eximem, nisl ut tincidunt blandit, ligula sem vulputate enus, a posuere elit quam id mauris. Quisque nec suscipit eu, dixtem phasellus. Eiam porta ut arcu non condimentum. Curabitur id amet sollicitudin ante, ut amet egerrus nunc, in hac habitasse platea dictumst.

Basic pages, and all content types with a text editor field as in the screenshot below, have the ability to insert images.

Standard Image size:

- **Cropping ratio** - does not apply
- **Cropping ratio** - does not apply
- **Minimum:** no minimum
- **Maximum:** 860 pixels wide by 860 pixels high (full width of content column)
  - If you insert an image larger than 860 pixels, Drupal will automatically crop the image.
  - Excessively large images—usually greater than 2000 or 3000 pixels—have been known to “white-screen” the page when Drupal attempts to crop. You
may want to process and pre-crop some images, especially if they are straight from a camera or mobile phone.

A note on captions and alignment

If you make use of the caption feature, it will change your image based on how it is aligned.

It is recommended that you choose an alignment when using captions.

You’ll have the option to use captions when you insert an image. Notice the checkbox for captions toward the bottom of the screen:

Beneath the image, you’ll see a place to add a caption:

I have added the text: “Wanda Landowska at her harpsichord.”

Here’s how the edit screen looks after I have added my caption.

After I save my content, the captioned image will take on a certain form based on how I have chosen to align it.
**Right or left alignment:** the image will be 50 percent of column width.

**Center alignment:** the image will fill the content column 100 percent.

"**None**" alignment: If you don't provide an alignment when you are using captions -- ie, set it to "none" -- you'll end up with extra gray space next to your image, as seen in the below example:
