### Basic Pages (and all content types with a text editor field)

- Basic pages, and all content types with a text editor field as in the screenshot below, have the ability to insert images.

### Standard Image size:

- **Cropping ratio** - does not apply
- **Cropping ratio** - does not apply
- **Minimum**: no minimum
- **Maximum**: 860 pixels wide by 860 pixels high (full width of content column)
  - If you insert an image larger than 860 pixels, Drupal will automatically crop the image.
  - Excessively large images - usually greater than 2000 or 3000 pixels - have been known to "white-screen" the page when Drupal attempts to crop. You
may want to process and pre-crop some images, especially if they are straight from a camera or mobile phone.

A note on captions and alignment

If you make use of the caption feature, it will change your image based on how it is aligned.

It is recommended that you choose an alignment when using captions.

You’ll have the option to use captions when you insert an image. Notice the checkbox for captions toward the bottom of the screen:

Beneath the image, you’ll see a place to add a caption:

I have added the text: “Wanda Landowska at her harpsichord.”

Here’s how the edit screen looks after I have added my caption.

After I save my content, the captioned image will take on a certain form based on how I have chosen to align it.
**Right or left alignment:** the image will be 50 percent of column width.

**Another image page with captions**

Here's some text. Maecenas eget mauris arcu. Suspendisse mollis tortor, maximus at pharetra et, fermentum ac lac. Proin non dolor efficitur, vehicula arcu et, varius tellus.

Quique possit ante tincidunt, venenatis risus nec, tempus mauris. Ut quis diam vel ex facilis porta.

Aenean euismod, nulla at tincidunt blandit, ligula sem vulputate eros, a posuere elit quam id mauris. Quisque nec suscipit ex, dictum finibus ipsum. Etiam porta ut arcu non condimentum. Cumlibur sit amet sollicitudin ante, sit amet auctoria nunc. In hac habitasse platea dictumst.

Aliquam iodoque ligula at massa lobendum viverra. Cras imperdiet, sem sit amet interdum aliquam, libero augue placerat magnis, et euismod felis tellus condimentum sem in et congue. Aliquam vehicula ante condimentum euismod ornare.

Aenean malesuada sem ligula, ut sagittis lorem ultrices sit amet. Phasellus porttitor interdum scelerisque. Mauris sit amet placerat quam, ut molestie quam.

---

**Center alignment:** the image will fill the content column 100 percent.

**"None" alignment:** If you don't provide an alignment when you are using captions-- ie, set it to "none"-- you'll end up with extra gray space next to your image, as seen in the below example:
