Setting Up UGAMail Email and Calendar on Handheld Devices

Overview

The University of Georgia’s email and calendar system, UGAMail, is powered by Microsoft’s Office 365 Education. These resources may be connected to handheld wireless devices, including cell phones and tablets. Instructions for setting up email and calendar on these devices are provided by EITS:

- UGAMail support page
- UGAMail setup guides (includes a section on Configuring Mobile Devices for UGAMail)

Franklin College Departments

Please see the Wireless Communications Devices (WCD) Policy Information page for additional details for UGA-owned wireless devices.
