Guide to Image Sizes

Complexity Level: Beginner
This is a beginner topic. Little to no advanced knowledge is required.

Overview
Our Drupal 8 Franklin theme supports a variety of image sizes. Here is a handy guide to show you minimum and optimal image sizes and proportions.

Table of Contents

Homepage Featured Slides

Standard Image Size:
- Cropping ratio: 10 x 3
- Minimum: 1000 pixels wide by 300 pixels high
- Maximum: 2400 pixels wide x 720 pixels high
- Any image uploaded that is at least 1000 pixels wide and 300 pixels high can be cropped after uploading to the 10 x 3 ratio.

News Articles
UGA Mathematics graduate selected as Black History Month Honoree

UGA Mathematics graduate Shantie Walker was selected as an honoree for Black History Month on the website "Mathematically Gifted and Black".

Access the full article here.

**Standard Image Size:**

- Cropping ratio - For Spotlight (above): 3 x 2
- Cropping ratio - Within Content: none, crop as you see fit
- Minimum: 325 pixels wide by 325 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights.

**Banner Image Size:**

**UGA Top Papers at NCA**

UGA had an excellent NCA this year! A number of faculty and students were awarded top papers in their respective divisions.

- Cropping ratio: 7 x 3 and 3 x 2 (for Spotlights)
- Minimum: 680 pixels wide by 280 pixels high
- Maximum: 860 pixels wide x 360 pixels high
- Any image uploaded that is at least 680 pixels wide and 280 pixels high can be cropped after uploading to the 7 x 3 ratio, or 3 x 2 ratio for Spotlights.

**Events**

**Upcoming Events**

*JUNE 25*

Mariel Pfleger (Exit Seminar)

Mariel Pfleger (University of Georgia)

Friday, June 23, 2023 - Whitman Zone (small ceremony) @ 6 PM (for OSB)

**Standard Image Size:**

- Cropping ratio - For Spotlight (above): 3 x 2
- Cropping ratio - Within Content: none, crop as you see fit
- Minimum: 325 pixels wide by 325 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights.

Diana Downs

Professor
The goal of the research in my laboratory is to understand the integration of metabolic pathways that result in the exact physiology associated with cancers. In this effort we emphasize a biochemical genetic approach that utilizes in vitro analyses to inform the design of in vivo experiments. Currently the work in the lab is in two general areas.

1) Understanding the RAP system of endogenous melanocyte stress. My laboratory identified a new stress system that is expressed across all domains. We showed that certain metabolites, which are necessary intermediates in some P53-dependent reactions, are able to damage cellular components. The RAP protein family is responsible for downregulating the enzymes to generate stable nucleic acid products. These findings have opened an exciting new field of study in the lab. Immediate questions include: which enzymes generate stress signals? Which enzymes are targets of the damage? What is the specificity of RAP homology? What are the biochemical consequences of lacking RAP in various organisms. This project has not only defined a new stress and cellular response to it, but has implications for our understanding of the composition and characteristics of the cellular milieu.

Standard Image Size:
- Cropping ratio - For Spotlight: 3 x 2
- Cropping ratio - Square for the directory and within content (shown above): 1:1
- Minimum: 320 pixels wide by 320 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights or the 1:1 Square ratio.

Basic Pages (and all content types with a text editor field)

Basic pages, and all content types with a text editor field (as in the screenshot below), have the ability to insert images.

Standard Image Size:
- Cropping ratio - does not apply
- Cropping ratio - does not apply
- Minimum: no minimum
- Maximum: 860 pixels wide by 860 pixels high (full width of content column)
  - If you insert an image larger than 860 pixels, Drupal will automatically crop the image.
  - Excessively large images—usually greater than 2000 or 3000 pixels—have been known to "white-screen" the page when Drupal attempts to crop. You may want to process and pre-crop some images, especially if they are straight from a camera or mobile phone.

A note on captions and alignment

If you make use of the caption feature, it will change your image based on how it is aligned.
It is recommended that you choose an alignment when using captions.

You'll have the option to use captions when you insert an image. Notice the checkbox for captions toward the bottom of the screen:

Beneath the image, you'll see a place to add a caption:

I have added the text: "Professor Susan Haire teaching her research methods during a criminal justice class in one of the classrooms in Candler Hall."

Here's how the edit screen looks after I have added my caption.

Right or Left Alignment: the image will be 50 percent of column width.
The Criminal Justice Studies Program

The Criminal Justice Studies Program offers an interdisciplinary academic program of study. Core and elective courses are taught by faculty in a variety of disciplines, particularly those that focus on social science. Required courses, including those associated with internships, are taught by faculty in political science and sociology. The program prepares students for graduate school in criminology, criminal justice, other social science disciplines, and other related professional degree programs, such as law, social work, and public administration. Alumni have gone on to positions in law enforcement, Corrections, probation, juvenile justice, corporate security, social services, judicial administration, and other government agencies, including military service.

Center Alignment: the image will fill the content column 100 percent.

Study Abroad

University of Liverpool

Each summer, faculty from SPIA and Franklin conduct a USA-led study abroad program at Liverpool in Northwest England. Students will be housed in single occupancy rooms at the University of Liverpool, located in the city center and just a few blocks away from parks, restaurants, the waterfront, historical sites, and, of course, a soccer stadium. The program fee includes lodging, some meals, a trip to mountains and castles in Wales and a visit with the local police force. Scheduled from late June through mid-July, there is no conflict with existing Westminster classes. Open to any major, this program offers two courses that focus on crime and justice: one in political science and the other in sociology. Both courses are "counted" towards the major.

"None" Alignment: If you don't provide an alignment when you are using captions-- ie, set it to "none"-- you'll end up with extra gray space next to your image, as seen in the below example:

University of Liverpool

Each summer, faculty from SPIA and Franklin conduct a USA-led study abroad program at Liverpool in Northwest England. Students will be housed in single occupancy rooms at the University of Liverpool, located in the city center and just a few blocks away from parks, restaurants, the waterfront, historical sites, and, of course, a soccer stadium.
