Adding Related Articles to Research Areas

Overview
This document shows you how to add Related Articles to research pages.

Table of Contents
- Step 1: Create an Article
- Step 2: Add Research Area(s)
- Step 3: View Research Areas
- Step 4: View Related Articles
- Adding Related Events:

Step 1: Create an Article
Click on 'Content'

Click on 'Add Content'

Click on 'Article'

Add content
Use articles for time-sensitive content like news, press releases or blog posts.
Fill in the details for your article.

Step 2: Add Research Area(s)

Start typing in the Research Areas box and it will show you options to choose. You can click on ‘Add another item’ to add as many as you need.

Click on ‘Save’

Step 3: View Research Areas

Click on the link under ‘Research Areas’ if you’d like to view all of the articles in that particular research area.

Step 4: View Related Articles
This will appear on the research area(s) you have selected
