Guide to Image Sizes

Overview

Our Drupal 10 Franklin theme supports a variety of image sizes. Here is a handy guide to show you minimum and optimal image sizes and proportions.

Table of Contents

Homepage Featured Slides

Standard Image Size:

- Cropping ratio: 10 x 3
- Minimum: 1000 pixels wide by 300 pixels high
- Maximum: 2400 pixels wide x 720 pixels high
- Any image uploaded that is at least 1000 pixels wide and 300 pixels high can be cropped after uploading to the 10 x 3 ratio.

News Articles
UGA Mathematics graduate selected as Black History Month Honoree

UGA Mathematics graduate Sharice Walker was selected as an honoree for Black History Month on the website "Mathematically Gifted and Black". Access the full article here.

**Standard Image Size:**
- Cropping ratio - For Spotlight (above): 3 x 2
- Cropping ratio - Within Content: none, crop as you see fit
- Minimum: 325 pixels wide by 325 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights.

**Banner Image Size:**
- Cropping ratio: 7 x 3 and 3 x 2 (for Spotlights)
- Minimum: 680 pixels wide by 280 pixels high
- Maximum: 860 pixels wide x 360 pixels high
- Any image uploaded that is at least 680 pixels wide and 280 pixels high can be cropped after uploading to the 7 x 3 ratio, or 3 x 2 ratio for Spotlights.

**UGA Top Papers at NCA**

UGA had an excellent NCA this year! A number of faculty and students were awarded top papers in their respective divisions.

- Cropping ratio: 7 x 3 and 3 x 2 (for Spotlights)
- Minimum: 680 pixels wide by 280 pixels high
- Maximum: 860 pixels wide x 360 pixels high
- Any image uploaded that is at least 680 pixels wide and 280 pixels high can be cropped after uploading to the 7 x 3 ratio, or 3 x 2 ratio for Spotlights.

**Events**

**Upcoming Events**

**JUNE 25**

Mariel Pfefler (Exit Seminar)

Mariel Pfefler (University of Georgia)
Friday, June 23, 2023 - 11:00 AM
Zoom (link will be shared for link)

**Standard Image Size:**
- Cropping ratio - For Spotlight (above): 3 x 2
- Cropping ratio - Within Content: none, crop as you see fit
- Minimum: 325 pixels wide by 325 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights.

Professor

The goal of the research in my laboratory is to understand the integration of metabolic pathways that results in the eukaryotic physiology associated with oncology. In this effort we have implemented a biochemical genetic approach that utilizes in vivo analysis to inform the design of in vitro experiments. Currently the work in the lab is in two general areas:

1) Understanding the bid system of metabolic/oxidative stress. My laboratory directed a new stress system that is conserved across all eukaryotes. We showed that this system is modulated in some PTP (protein tyrosine phosphatases) and that it is involved in the regulation of the ATP/ADP ratio. The PTP protein family is responsible for downregulating the activity of PKA and other kinases. These findings have opened an exciting new field of study in the lab. Immediate questions include: Which enzymes are associated with stress? Which enzymes target the enzymes? What are the biochemical consequences of lacking this system in various organisms? This project has not only defined a new stress and cellular response to stress, but has implications for our understanding of the composition and characteristics of the cellular milieu.

Standard Image Size:

- Cropping ratio - For Spotlight: 3 x 2
- Cropping ratio - Square for the directory and within content (shown above): 1:1
- Minimum: 320 pixels wide by 320 pixels high
- Maximum: 860 pixels wide by 860 pixels high
- Any image uploaded that is at least 325 pixels wide by 325 pixels high can be cropped after uploading to the 3 x 2 ratio for Spotlights or the 1:1 Square ratio.

Basic Pages (and all content types with a text editor field)

Basic pages, and all content types with a text editor field (as in the screenshot below), have the ability to insert images.

Standard Image Size:

- Cropping ratio - does not apply
- Cropping ratio - does not apply
- Minimum: no minimum
- Maximum: 860 pixels wide by 860 pixels high (full width of content column)
  - If you insert an image larger than 860 pixels, Drupal will automatically crop the image.
  - Excessively large images-- usually greater than 2000 or 3000 pixels-- have been known to "white-screen" the page when Drupal attempts to crop. You may want to process and pre-crop some images, especially if they are straight from a camera or mobile phone.

A note on captions and alignment

If you make use of the caption feature, it will change your image based on how it is aligned.
It is recommended that you choose an alignment when using captions.

You’ll have the option to use captions when you insert an image. Notice the checkbox for captions toward the bottom of the screen:

Beneath the image, you’ll see a place to add a caption:

```
Enter caption here
```

I have added the text: "Professor Susan Haire teaching her research methods during a criminal justice class in one of the classrooms in Candler Hall."

Here’s how the edit screen looks after I have added my caption:

```
Title
The Criminal Justice Studies Program

Body: (full width)

The Criminal Justice Studies Program offers an interdisciplinary academic program of study. Core and elective courses are taught by faculty in units in social science. Required internship supervision, are taught and the Program prepares students to practice, other social science, and programs, such as law, I have gone on to positions in police justice, corporate security, her government agencies.

Undergraduate Program Information

Beneath the image, you’ll see a place to add a caption:

After I save my content, the captioned image will take on a certain form based on how I have chosen to align it.

**Right or Left Alignment:** the image will be 50 percent of column width.
The Criminal Justice Studies Program

The Criminal Justice Studies Program offers an interdisciplinary academic program of study. Core and elective courses are taught by faculty in units across campus, particularly those that focus on social science. Required courses, including those associated with internships or supervised practice, are taught by faculty in political science and sociology. The program prepares students for graduate school in criminology, criminal justice, and other social science disciplines, as well as in law, social work, and public administration. Students have gone on to positions in law enforcement, corrections, probation, juvenile justice, corporate security, social services, judicial administration, and other government agencies, including military service.
